

Casio's Stylish QT-6600 Flash ROM POS Terminal for Retail, Grocery, Convenience and Liquor Store needs.

- Wide bright 15-inch color, TFT LCD touch panel
- Graphical icons such as fruit and produce pictures can be assigned to keys which further enhance ease of use for operators

Flexible Connectivity

- Six (6) RS232c ports provide peripheral connections for system expandability including printers, scanners, scales, PC, integrated credit/debit/gift EBT card device, check verification device, coin dispenser and video surveillance devices.
- Two (2) standard cash drawer ports utilizing Casio's medium (DL-2434) and large (DL-3622) sized heavy duty black drawers.
- An optional PS2 keyboard can be attached.
- An Ethernet 10/100 Base T/TX port ensuring smooth, fast and reliable in-house communications using CAT 5 cable.
- An optional three-line alpha/numeric LCD remote customer display (Casio QT-6060DB).

Easy and Accurate

- A built in 2-line alphanumeric rear customer display.
- Wide bright 15-inch color, TFT LCD touch panel offers clear categorization for item registration, numeric entry and entry confirmation.
- The QT-6600 display can be easily adjusted for optimal operator viewing.
- An intuitive screen layout reduces training time for new employees.

Stable Flash-ROM System

- Non-PC operating system—Virus free
- Problem prone hard drive and fan eliminated
- Any operation will resume quickly where it left off after a power failure.

Security

- Password codes can be assigned to staff, limiting access to various programs modes and operations.
- Operator access to the terminal can be accomplished through three methods; secret code, optional Dallas Key or through an optional magnetic stripe reader.
- Multiple drawers permit managers to control operator's access to drawers. The drawer assignment provides a level of security to management to monitor the flow and handling of money by operator.

Grocery/Liquor Store/Convenience Store

- Bar code reading of EAN/UPC codes improves registration time, item and price accuracy.
- Large scanning file (60,000 items). Each item can have up to seven price levels and sales counter on reports.
- "Not Found Item" operation to easily add an item. A Not Found Item report is available.
- Age verification for liquor/tobacco applications.
- Customer charge account file with credit limits.
- The ability to scan price embedded bar codes for in store weighed and labeled items. Tracks sales and generate reports of quantity and weight of items sold.
- Mix and match file.
- Interface to Credit Card and Check authorization services for all verticals as well as EBT for the grocery/retail environments.
- Inventory with stock inquiry.
- Scanning file batch maintenance manual or timed.

Flexibility and High Performance

- Electronic Journal
- Timekeeping
- An FTP communication function permits remote site access to retrieve or send sales from various sites along with program updates from a central office.

Additional Features

- ✓ Scheduler function for automated reporting
- ✓ Graphical screen saver screen
- ✓ Back-office software available:
 - Casio HDRS reporting software
 - Casio Retail reporting and inventory software
 - PC/Poll reporting and inventory software

Magnetic Stripe Reader

Optional Remote Display
