Sales Graph

Create your store diary! With photos, weather record and sales graph, it will be your reminder to create your business strategy.

### Age Verification

REG	Date	Time	Item	Price	Status
REG	28-02-2019	15:00			
_C11				000017	
AGE				01-01-1986	OK
1			ALCHHOL	-5.00	
TL				-.5_._0_0	
CASH				-5.00	
REG	28-02-2019	15:02			
_C11				000018	
AGE				01-01-2005	NG
TL				-.0_._0_0	
CASH				-0.00	

To manage age-restricted products, you can set age limitation for each item.

For example, if the drinking age is 20, set alcohol's age limitation as 20.

If the customer is under 20, warning message will be displayed and it will not allow to register alcohol.

(See display in the right)

### Time Attendance

Staff	Date	Event	Time
Z		Time/Attend	0002
			0001029
K. Johnson	28-02-2019	CLOCK-IN	14:38
		CLOCK-OUT	15:14
K. Smith	28-02-2019	BREAK-IN	15:14
O. Miller	28-02-2019	BREAK-OUT	15:14

Owners can check staff's shift situations on smartphones

\*Z report must be executed from the cash register via smartphone to reflect the latest status

Shows each staff's

- Clock - In
- Clock - Out
- Break - In
- Break - Out

Refund

You can track the operations on smartphone. It helps to detect an employee's fraud by checking them. Also, it reduces mistakes and troubles.

\*Z report must be executed from the cash register via smartphone to reflect the latest status

## POP Printing

You can easily set pop images on your ECR via smartphone. (\*Up to 5 images can be set)  
Use this function for shop promotion or coupon.

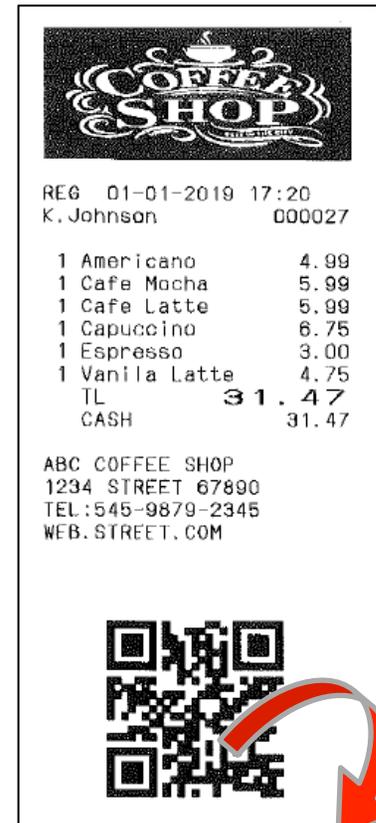

**EXAMPLE 1:**  
If total amount is more than \$20.00, print 10% off coupon.

**EXAMPLE 2:**  
If total amount is more than \$300.00, print 30% off coupon.

**EXAMPLE 3:**  
Print QR code

- POP printing conditions
- Always print same POP
  - Change POP by amount
  - Change POP by Item
  - Do not print

The cash register will automatically print Coupon depending on purchase amount.  
If the customer brings the coupon next time, they get discount.  
⇒Helps to win repeat customers
